

Senior / Principal Consultant – Heritage and Archaeology

Description

Crestwood Environmental Ltd. is a well-established multi-disciplinary company providing environmental planning and associated expertise (including EIA, landscape architecture, ecology, archaeology, geo-environmental and environmental consultancy) to a wide variety of sectors and clients, and is proud to be a **Chartered Environmentalist Employer Champion**.

We are currently seeking a **Senior or Principal Consultant (Heritage and Archaeology)** to join our team. Supported by a strong team of dedicated professionals and an ever-increasing client base plus impressive work stream, all the ingredients are there for the right person to join our company and build a successful career.

Location: Part-home-working and flexibility on location, but preferably central England.

The role will be wide-ranging with office and field-based assignments throughout the UK

Qualifications

A successful candidate will be able to demonstrate suitability in relation to several areas, including:

- Qualification to at least degree level in a Heritage or Archaeological subject;
- Good knowledge and thorough understanding of UK planning policy framework as applicable to commercial archaeology;
- Experience of liaising with clients, statutory consultees and relevant stakeholders;
- Preparation of fee proposals, manage project finances and data collection from a variety of sources;
- ACIfA level membership or above and/or equivalent experience of at least 6 years' commercial working in a heritage/archaeology role;
- Ability to manage / undertake field-based projects and produce concise, high quality, written work such as WSI's, DBA's, evaluation reports to managed timescales and budgets;
- Willingness to undertake a wide variety of office and field-based work around the UK;
- A thorough understanding of the relevant Health and Safety at Work requirements;
- Excellent and proactive communication and organisational skills;
- Good IT literacy (MS Office at least, ideally in GIS and Adobe apps also);
- Good commercial and customer care awareness; and
- Friendly, supportive, collaborative, practical 'can do' approach.

Whilst relevant experience in consultancy is desirable applicants who can demonstrate experience in direct communication with clients and other stakeholders may be considered.
