

Ref: SPL01

## Minerals and Waste Planning Consultant (Senior level or above)

### Some flexibility on location

**Crestwood Environmental Ltd.** is a friendly, well-established multi-disciplinary company providing environmental planning and associated expertise (including EIA, landscape architecture, ecology, archaeology, geo-environmental, arboriculture and environmental consultancy) to a wide variety of sectors and clients, but with a long-standing established presence in the minerals and waste sectors.

Together with a strong and ever-increasing client base, impressive work stream, a great team of dedicated, professional (multi-disciplinary) staff, there is a great opportunity for a suitable candidate to assist in the development of our specialist minerals and waste planning consultancy function, at an extremely exciting time for the Company.

Crestwood Environmental Ltd. are therefore seeking a **Minerals and Waste Planning Consultant (Senior level or above)** to lead the undertaking of various planning applications, appeals and representations, EIA co-ordination, negotiation of conditions / planning agreements, development plan representations, stakeholder consultations and public exhibitions, and the provision of expert advice to our clients around the UK.

In return the Company can offer:

- Flexibility on location (although regular access to Wolverhampton would be required).
- A flexible remuneration package commensurate with the position (including permutation options of pension, mobile phone, laptop, performance-related bonus scheme);
- A commitment to facilitating a Personal Development Plan through training etc.;
- Payment of key professional subscription fees;
- A fair TOIL and flexible leave arrangement; and
- Transitional organisational support (e.g. for relocation), if appropriate.

The successful candidate would be able to demonstrate suitability in relation to a number of areas, including:

- Recent and comprehensive (minimum 5 years) experience in minerals and waste management planning and EIA, covering the various areas described above;
- Full member of an appropriate professional institution (e.g. RTPI);
- Good computer literacy, and excellent report writing and oral communication skills; and
- Proven 'project management', problem-solving and mentoring skills.

As the role requires working on projects around the UK, a full UK driving licence and ability and willingness to drive to project locations around the UK, sometimes with overnight stays, will be required.

If you would like to apply for the above position please contact (in absolute confidence) Alyson Tunney ([HR@crestwoodenvironmental.co.uk](mailto:HR@crestwoodenvironmental.co.uk)) and Alyson will send you an application form to complete, or you may wish to **download a form** from our [vacancies webpage](#).

To find out more about this role, or for an informal chat, please call Adam Collinge on 01902 229 563, quoting the above job vacancy position.
